This symposium will bring together faculty and students of Latin America from the Free University of Berlin and their Columbia counterparts. We will discuss common research agendas around the general theme of globalization and the social, cultural and historical production of spaces. After a plenary discussion the group will break up into panels by themes and discipline, in which participants will discuss their current work and research agendas. If interested in participating in the panels and general meeting please contact Esteban Andrade at eea2127@columbia.edu.
