

Muito antes mesmo de ser um estado nacional, o Brasil já era um país de migrantes e diásporas internas e externas. As experiências de convivência nesta sociedade hierárquica e heterogênea foram expressas, ao longo dos séculos em distintos conceitos (p.e. cordialidade, mestiçagem, multiculturalismo), dispositivos disciplinadores (p.e. aldeamentos, reservas) e movimentos estéticos-políticos (p.e. antropofagia, tropicalismo). Neste workshop, alguns marcos no processo de constituição da coexistência com a/ em diferença (conviviality) no Brasil serão discutidos a partir de diferentes dimensões e disciplinas: literatura e cultura, ciências sociais e história.
